# A Girl and Her Horse

By Riley Moss  
A kids book

“ As a girl i always wanted a horse.” Hi my name is Quinn. My dad Kelly hasn't bought me a horse yet. He would say, “ Quinn you're only four.”

But now i'm 17 and we are going to a sale. I remember sitting and being so excited just waiting to get there. When we arrived, there were so many horses. The smell of horses was in the air.

A young blond horse stood out to me. She was a light blond with almost white hair. She didn't have a name.

She is only 1 year old so she had a lot of training to do. I started riding with my friend that i had a crush on, his name is Trey.

One day they a wrong turn and got lost. They kept going hoping to find something to get them home. Then, this snake comes out of nowhere and they horses took off. Trey and I fell off.

Now we are lost and no one is around  
and no horses. I was really freaked out  
but Trey comforted me.

My Dad started getting worried because we were not home. So he got out his horse and right before he took off he sees Trey and my horse. My horses wouldn't go in his stable instead he started shaking his head and took off in the woods and dad's horse went with him.

After 4 hours of worrying was over, he found us at last. He was relieved to find us okay! When we got home, I was hungry. Trey and Dad almost didn't get any supper.

I thought about my horse and how she knew right where we were and the house was. So i named her Compass because of the way she knows the way to go.

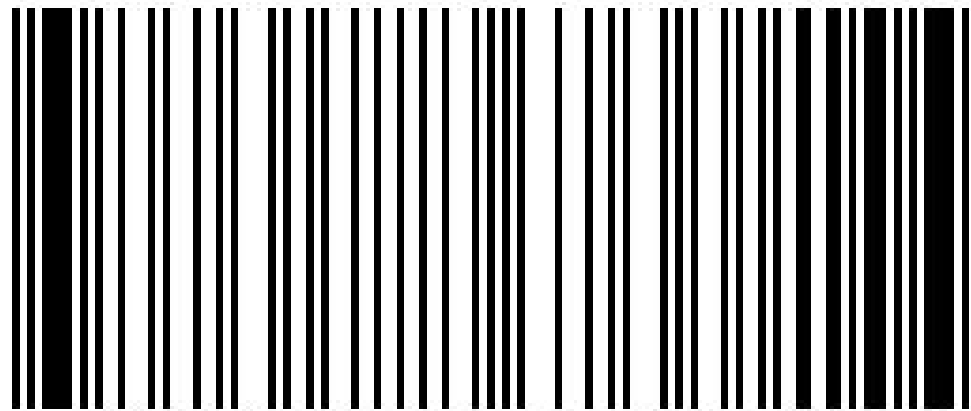

Trey and I started dating and we all ride. We have many more adventures ahead of us.

But no more Snakes!!!
