# The Undead

By Terry Jones

I wake up all I see are white walls. I go and sit on the floor and try to claw my way out that don't work so I go over to the door. The door won't open so I look around. There is a big mirror in the middle of the wall. I pick up a stool and smash the mirror. There is another room on the other side of the wall.

After I smash it and go through in the other room is there are three dead bodies. I climb through the hole in the wall. A gun is on the floor so I pick it up. I have to find a way out of here. So I go out the door and down the hallway.

I remember my imaginary friend owl-man. He helped me out of the mental hospital. So now that he is with me I walk out of the mental hospital and started walking down the street. I start to run. Someone is chasing me me down the road there are bodies everywhere on the ground OMG.

I am getting close to my house. I run around the corner and up my stairs. When i go inside I close and lock the door.No one is here I search the whole house I closed all the windows and doors. I have to make sure no one gets inside.

When I go up to my room I open my gun safe and get all the weapons out. I used to be a police officer. So I get all my stuff and head out the door to go to my friends house. I hope my family is there. My name is kilee I remember. I got in a gun battle with six bad guys and hit my head on something hard.

Do I lost a lot of blood and I started to loose my mind. So they took me to the mental hospital to get me help. I have a sister, husband, and a daughter. Their names ate Kinsey Rogregas, Zane Rogregas, and Katie Rogregas. I don't know where they are they could be anywhere. I have to find them I can't lose them.

My family

I can't find anyone so I go to my friend jack's house. He is there and he lets me in and he tell me the dead are walking. What did he mean by that? He had recorded the news and showed it to me. When someone died they came back to life and the only way to kill them was to shoot or stab them in the head.

So I have to go out and find my family. Jack do you want to come with me? Yea kilee I would love to go out and help you find them. So let's make sure we have everything we need. I will get the guns you go get food and water.

This is jack.

# Kilee's cars

We have to get gas for the two cars we are taking. Ok let's get everything loaded and we will go find everyone. Ok we have to go 100 miles to my daughter's friends house. So we get into the cars and head that way. We have about 10 more miles until we are there. All we have to do is go down the road and into her driveway. And hopefully she is there waiting on me.

We pull into her driveway and Katie runs out and gives me a big hug. I missed you so much mom I thought I would never see you again. I love you katie so much. I love you zane how have you been since this has started. Good but now everything is amazing. Let's go inside ok I don't want to be out here. Ok lets go. Have you heard from lily zane? Yea she is in the other room. That's good I am gonna go talk to her.

Ok lilly we have to go back to my house and make sure that nothing gets in and we can live there or do you want to go break into a nice house and live there. I want to go to a nice house. Ok let's get everyone and go to a nice house. We have to drive 300 miles to california to a big nice house with a gate.

We have made it to California and we have picked out the house we want. Let's go inside and see if anyone is in there. Let's go there is no one inside let's lock it down and live here. I will go and lock it down in the panic room. Ok everyone else go and look around the house and see if there are any places for anyone or anything to get in. Ok I will see you later.

Kilee is trying to find her family as she wakes up in a mental hospital. As she moves along she finds her family and friends. After she finds them she is so happy.
